<sup>\*</sup> This report includes outcomes data on the Class of 2023 which was collected within nine months after graduation.

# Executive Summary

**PURPOSE:** The First Destinations Survey obtained information from 204 of the 222 graduates in the Class of 2023 regarding post-graduation activities. Results of the survey help us better understand outcomes including range of experiences, along with top employers and graduate/professional schools.

The information is particularly helpful to current and prospective students when considering career options. Additionally, it provides students an understanding of how academic majors can lead to various “first destinations” and pathways. In support of liberal learning, this report highlights the value of the Washington College experience and how it prepares students for lives of purpose and passion.

The report reflects outcomes data collected for nine months after graduation. As the graduates conducted job searches, they experienced a changing recruiting landscape reflecting an increase in virtual strategies and practices.

**METHODOLOGY:** The 2023 Cap and Gown Survey was emailed to students the week prior to graduation. Those who had not completed the survey were expected to do so during commencement rehearsal. While many reported not having firm plans, updated contact information was gathered for follow-up.

Throughout the next nine months, career center staff collected information on job searches, graduate and professional school enrollment decisions and gap year plans. By the end of February 2024, information on 204 of the 222 graduates was compiled, a 92% knowledge rate.

## **KEY FINDINGS:**

- Based on knowledge rate, 83% of the class was either employed or continuing education.
- 62% of the respondents were employed full-time or part-time.
- 21% of the respondents were enrolled or planning to pursue advanced study. 2% of all respondents entered law school and 1% of all respondents entered health professions programs **immediately** after graduation.
- 14% of the respondents were categorized as “Other” which included traveling, volunteering, deferring graduate school, working in temporary positions or unpaid internships.
- Of the 127 employed graduates, 98% (124) provided information on starting locations. 52% of those employed accepted positions in Maryland including the District of Columbia.

- 17% of those employed accepted positions in PA/DE/VA and 9% accepted positions in NJ/NY.
- Employed graduates, reporting starting location, accepted positions in 19 states and the District of Columbia.
- Top ranking employers: Washington College, National Institutes of Health, Dixon Valve, Horn Point Laboratory, Johns Hopkins University, Shore United Bank, and Smithsonian National Museum.
- Top Graduate/Professional schools: University of Maryland (4), George Washington University (3), and University of Tennessee (2).
- Based on responses from those employed, 39% of the class obtained their employment through alumni connections, career center resources, faculty/staff, or internship/externship connections. Another 15% reported obtaining positions through family and/or friend connections.
- 3% of the class was still seeking employment opportunities at the conclusion of the data collection.

The chart below includes first destinations historical data from 2018 - 2023.

<b>Class Year</b>	<b>Employed</b>	<b>Continuing Education</b>	<b>Health Professions Programs</b>	<b>Law School</b>	<b>Other</b>	<b>Still Seeking</b>	<b>Knowledge Rate</b>
